

### Chapter 3

The next morning, Annie went to Ted's house. Ted was sleeping.

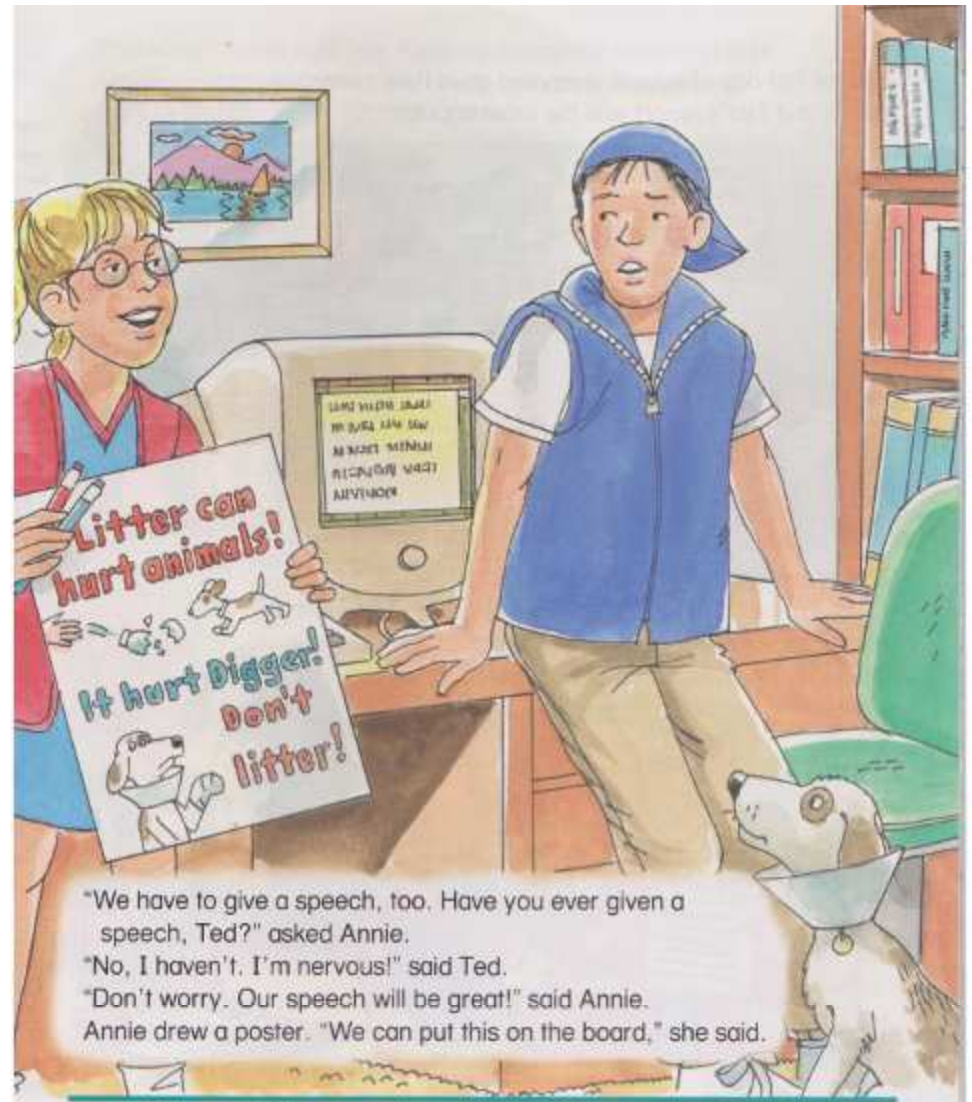

"Wake up! It's time for school!" said Annie.

"Huh? Oh, no!" said Ted.

"I'm just kidding! Come on, let's write our report," said Annie.

After breakfast, Ted and Annie watched the Clean Sunnyville Walk video. Then they wrote their report.

"We have to give a speech, too. Have you ever given a speech, Ted?" asked Annie.

"No, I haven't. I'm nervous!" said Ted.

"Don't worry. Our speech will be great!" said Annie.

Annie drew a poster. "We can put this on the board," she said.

On the last day of school, everyone gave their speeches. Annie and Ted's report was the most popular.

They passed out a list of web sites. "There are a lot of ideas on these web sites. This summer, you can volunteer at an animal clinic, or you can take care of the environment," said Annie.

"Thank you, Annie and Ted. Keeping Sunnyville clean and safe is very important. Look at this article in today's newspaper," said Ms. Apple.

"That's awful. We should do something," said Ted. "Maybe you can do something during summer vacation. You have a lot of time!" said Ms. Apple.
