## Lesson 16
"Did you ever...?" Questions

Example

Did you ever get trapped in an elevator?

Answer

One time I was riding an elevator with a lot of people in it. Suddenly, it stopped between floors. An alarm came on and a red light flashed. I was scared. I was afraid we were going to fall to the ground and get killed. But in a few minutes the noise stopped, the light went off, and we started moving again. I was so relieved!
