

Lesson 25  
My Interests

I like to build model airplanes. Doing a good job of it takes a lot of time and care. All the pieces are tiny and frail. But when I finish, the plane looks super! Another thing I love to do is collect stamps. I've been doing this for many years. My dad got me started. Right now I'm trying to have a complete set of stamps from Ireland. Some of them are hard to find, but locating the rare ones is part of the fun.

### Comprehension Questions

1. What hobbies does he have?
2. How did he begin collecting stamps?
3. What is he trying to get now?

### More Questions

4. What are your hobbies?
5. Do they cost much?
6. What do your parents think of your hobbies?
7. How much time do you spend on your hobbies?
