

LESSON 15

Preposition

The words "on", "under", "in", "from" etc. are prepositions.

When we use question words, for example "what", "which" and "where", we put the preposition last in the sentence. For example, we do not say "From where do you come?"; we say "Where do you come from?" We do not say "On what are you putting the book?"; we say "What are you putting the book on?"
